To support this great movement, we need advisors to guide and suggest us in every area we are growing and expanding. 10. Nepali Cultural Center in Atlanta

It has been over six months since the Nepal Cultural Center initiative has begun in Atlanta and we have come a long way in our progress. However we need to search for different options so that we take advantages of the current housing market situation. We need to differentiate between must have and good to have and the latter can wait until our community is more resourceful but we need to focus on the former 'must have'. Talking about must have we need a simple house to begin with that would have enough space for a office or two and a fairly sized meeting place. This is 'must have'. Later, down the road, the next generation of leader could expand it. Along these here are some of the options proposed:

- i. Buying a commercial property.
- ii. Co-operative (This is similar to renting/time sharing an office suite)
- iii. Talk with Shiva Agrawal of Global Mall, to see if they can give us free a space at their location. (There is a chance that they will give a discounted rate for 501 C organizations).
- iv. Have a *NASeA Ashram*.
- v. Buy a portion or all of strip mall portio convert it into several sections so that we can have NCC office and hall along with other spaces that can be rented out to generate steady cash flow to sustain the daily running cost of the NCC building.
- vi. Buy a foreclosure house.
- vii. Buy a 'time-share' fashion property

Dhana Timilsina will explore the above options and shall brief the committee in the next meeting.

11. Adjourn

NASeA President Sanjeeb Sapkota adjourned the meeting and thanked everyone for their precious time.
